

## Turn community support into **real meals.**

Local supporters sponsor meals at your restaurant. Verified students claim them and pick up with a QR code — you just verify and serve. No student-sponsor matching, no awkward handoffs, no eligibility to manage.

### HOW IT WORKS

- 1 **Supporters sponsor meals** at your restaurant in the app.
- 2 **Meals join your pool** — shown as available in your dashboard.
- 3 **Verified students claim** — max 1/day, 3/week.
- 4 **Student arrives with a QR / GE code.**
- 5 **You verify & serve**, then mark it completed.

### WHY RESTAURANTS JOIN

- ✓ New foot traffic & sponsored meal volume
- ✓ Visibility as a local community partner
- ✓ Positive brand reputation in your neighbourhood
- ✓ Simple QR verification — no paperwork
- ✓ You set your menu, prices & hours
- ✓ Pause claims anytime; track every pickup
- ✓ No-show tracking built in

### FEES & PAYOUTS

**7%** commission on meal value

No upfront cost. You're paid on completed, verified pickups. Payouts are tracked in the partner dashboard (handled directly during the pilot).

### SAFE & PRIVATE

You only see a student's **first name, photo, code & pickup time**

QR / GE codes prevent duplicate or fake pickups

No student email, phone or ID is shared with you

Focused on selected local partners during the pilot

NOW ON THE APP STORE

**Download GivEat**

Students and supporters can download the app and start using the platform.

**GivEat™ · Community meals in Toronto**

Now live on the App Store — partners welcome.
